Pelodium has one neutron,12 assistant neutrons, 75 deputy neutrons, and 223 assistant deputy neutrons, giving it an atomic mass of 311.

These particles are held together by dark forces called morons, which are surrounded by vast quantities of lepton-like particles called peons..

Watching the left do to Ron DeSantis exactly what they did to Trump is fascinating because while Trump wasted a lot of energy fighting back, DeSantis shows how being singularly focused on policy and legislation is far more important and yields greater returns.

.@fabiolasantiago, from the @MiamiHerald, wrote a column calling Gov. Ron DeSantis a "white-supremacist."

So, let's go through some of the governor's leadership appointments:

So the WHO were rolling out 'medicine kits' in Uttar Pradesh. They included Doxycycline and Ivermectin and resulted in 97% (some reports say 99%) reduction in cases.

Why the media blackout? Why not available in Australia or elsewhere. This is a monumental scandal.

This was their basis to set up Jan 6th. They tried to manipulate us into violence. Just as they attempted to do at all the rallies leading up to his 1st win. But it failed, so they pretended they didn't fail and called a peaceful protest an insurrection. Led by the FBI.
